	<p><b>HAD en obstétrique : ante et post-partum</b></p>	<p><b>Rédaction</b> Pr O. MOREL Dr E. GAUCHOTTE Dr C. BARTHES Dr M. CREUTZ LEROY V. BOCQUET Membres de la commission HAD</p> <p><b>Validation</b> Commission HAD n° 3 du 16/05/2019 Conseil de coordination RPL du 27/06/2019</p>

## I – DEFINITION de l’HOSPITALISATION A DOMICILE

**Hospitalisation à domicile (HAD)** = modalité d’**hospitalisation** à part entière qui permet d’assurer « *des soins médicaux et paramédicaux, continus et coordonnés. Ces soins se différencient de ceux habituellement dispensés par la complexité et la fréquence des actes* » (ART. L 6125-2 du CSP).

L’objectif est d’éviter une hospitalisation conventionnelle à temps complet ou d’en diminuer la durée tout en assurant une permanence des soins (24 h/24 et 7j/7).

**L’HAD n’est pas assimilable à une surveillance à domicile par une SF libérale.**

## II - INDICATIONS d’HAD en ANTE-PARTUM

### II.1. - Critères généraux d’éligibilité à l’HAD

- Lieu de résidence de la patiente inclus dans le périmètre géographique d’autorisation d’une structure d’HAD avec une activité d’obstétrique (cartographie en **annexe 1** et liste des communes couvertes en **annexe 2**).
- Electricité et téléphone disponibles au domicile de la patiente
- Transfert en urgence organisable facilement depuis le domicile vers un CH adapté
- Patiente non isolée
- Bonne compréhension et adhésion au protocole par la patiente et son entourage

### II.2. - Critères médicaux en ante-partum

#### II.2.1. - Critères médicaux HAS

- RCIU (entre 10<sup>ème</sup> et 5<sup>ème</sup> percentile)
- ATCD de MFIU
- Cholestase gravidique modérée ou sévère
- Lupus et SAPL

- Fragilité de construction de la relation mère-enfant (en complément de la PEC par la PMI et les professionnels libéraux).
- HTA (gravidique ou préexistante) mal équilibrée (TAS < 160mmHg, TAD < 110mmHg) sans protéinurie
- HTA (gravidique ou préexistante) : si mal équilibrée (TAS < 160mmHg, TAD < 110mmHg) ou si **associée** à un RCIU ou un ATCD de MFIU/HRP/éclampsie
- Thrombophilie génétique **associée** à un ATCD HRP ou MFIU ou d'une complication en cours (RCIU)
- Diabète gestationnel ou préexistant à la grossesse **avec** objectifs glycémiques non atteints

### II.2.2. - Critères médico-territoriaux HAS pour l'ante-partum

Indisponibilité sur le territoire d'un autre recours ou offre de soins (SF libérale, PMI, ...) pour assurer le suivi à domicile d'une patiente présentant :

- une MAP
- un placenta *prævia*.

### II.2.3. - Critères RPL pour l'ante-partum : hors HAS

- RPM (recommandations CNGOF 2018)
  - RCIU < au 5<sup>ème</sup> percentile
  - Pré-éclampsie modérée
- ⇒ *Les équipes appliquant ces deux dernières indications évaluent leurs pratiques de manière régulière. Ces données seront présentées en commission HAD.*

## II.3. - Critères HAS en post-partum

### II.3.1. - Critères médicaux HAS pour le post-partum

- Cicatrisation difficile d'une plaie périnéale ou post-césarienne
- Surveillance et soins locaux en cas d'abcès ou collection pariétale
- Désunion de cicatrice après abcès ou hématome
- Thrombus vaginal traité
- Périnée complet
- Difficultés sphinctériennes (auto-sondage vésical)
- Dépression du post-partum
- Pathologie thrombo-embolique récente
- Diabète insulino-dépendant mal équilibré
- Pathologies infectieuses après la phase aiguë
- Anémie avec un taux d'Hb entre 7 et 9 g/dl
- HTA persistante après l'accouchement mais non préexistante à la grossesse en cours d'équilibration médicamenteuse

### II.3.2. - Critères médico-territoriaux HAS pour le post-partum

Difficultés d'allaitement chez les femmes à risque en l'absence d'offre de soin alternative (SF libérale, PMI, associations...) :

- mineures
- primiparité
- vulnérabilité
- ATCD de difficultés d'allaitement et de chirurgie mammaire
- grossesse multiple
- pathologie néonatale

### II.3.3. - Autres critères médico-territoriaux HAS pour le post-partum

Mères en situation de vulnérabilité (associée à une indication médicale) :

- mères adolescentes,
- femmes isolées sans soutien familial ni affectif,
- patientes dépendantes d'une drogue ou de l'alcool en complément d'une PEC multidisciplinaire,
- grossesse mal ou peu suivie,
- difficultés socio-économiques et nécessité de soins médicaux (césarienne, épisiotomie, allaitement débutant),
- doute sur une fragilité psychologique ou une difficulté de l'établissement du lien mère-enfant,
- patientes anorexiques,
- victimes de violence,
- patientes anxieuses ou présentant des ATCD familiaux de troubles de l'humeur,
- patientes subissant des événements graves (décès, séparation).

## III – MODALITES D'ADMISSION EN HAD

### III.1. - Prescripteur

L'HAD en ante et post-natal est prescrite par un gynécologue obstétricien.

### III.2. - Contractualisation

La patiente doit accepter son admission en HAD via la signature d'un contrat (**annexe 3**).

### III.3. - Admission

L'admission en HAD ne peut être effective qu'après réception par la structure d'HAD :

- du **contrat d'hospitalisation** signé (**annexe 3**)
- de la **fiche de demande d'admission** (**annexe 4 : pre-partum ou 4bis : post-partum**) remplie par le prescripteur, après avoir obtenu l'accord :
  - du coordinateur médical responsable des lits d'obstétrique de l'HAD concernée (**annexes 5**)
  - du médecin traitant désigné<sup>1</sup> par la patiente. Pour rappel, si l'HAD n'est pas validée par le médecin désigné, elle ne sera pas payée. Toutefois, l'absence de médecin traitant désigné ne doit pas être un frein à la mise en place de l'HAD puisque le gynéco-obstétricien prescripteur peut, avec son accord, être désigné comme « traitant » par la patiente.

---

<sup>1</sup> En cas de **transfert en HAD un week-end ou jour férié** : pour contourner la difficulté à obtenir cette autorisation, il conviendra d'anticiper, en staff, la sortie de la patiente dès son entrée **en hospitalisation conventionnelle**.

- Pour les **grossesses d'emblée à haut risque**, possibilité de recueillir le consentement par défaut du médecin traitant en début de grossesse. Il restera toutefois nécessaire de lui faire confirmer son acceptation au plus tard dans les 48 h suivant la sortie, pour chaque séjour : **en cas d'opposition de sa part, l'HAD devra s'arrêter**.

Toutes les fiches de demande d'admission en HAD impliquant une autre structure que celles du prescripteur et de l'HAD sont envoyées, par le prescripteur, par mail sécurisé ou fax, au GO référent HAD de cette tierce structure.

- Dans le cas d'une prescription émanant d'un type II ou III, la fiche est adressée au GO référent HAD (tableau en annexe 6) de l'établissement de naissance du territoire où vit la patiente (établissement de premier recours en cas d'urgence).
- Dans le cas d'une prescription émanant d'un type I ou II et, pour un terme de grossesse et/ou une EPF inférieurs aux seuils établis par le RPL (tableau en annexe 7) au moment de l'admission, la fiche est adressée au GO référent HAD (tableau en annexe 6) de l'établissement de naissance du territoire adapté (type II ou III).

**Le transfert** entre la maternité prescriptrice et le domicile peut se faire directement, sans passage par les urgences de la maternité de territoire, sauf demande spécifiée.

### III.4. – Rôle du gynéco-obstétricien référent HAD

Chaque maternité désigne un gynécologue obstétricien référent HAD.

Ce professionnel a pour missions de :

- Faire le lien entre l'équipe d'obstétrique de sa maternité et la ou les HAD partenaire(s), notamment, en informant les membres du staff de toutes les nouvelles admissions en HAD
- Réceptionner les fiches d'admission et les résumés cliniques hebdomadaires de :
  - o toutes les patientes hospitalisées en HAD sur le territoire de sa maternité
  - o et pour les établissements de type II ou III, des patientes hospitalisées sur un autre territoire mais dont l'âge gestationnel et/ou l'estimation du poids fœtal correspondent au niveau de soin de sa maternité
- Transmettre une copie de la fiche d'admission et des résumés cliniques hebdomadaires de toutes les patientes en HAD à la salle de naissance (cahier/classeur dédié)
- Assurer la continuité de ces missions en cas d'absence (binôme ou remplaçant désigné).

## IV – SUIVI

La structure d'HAD transmet, une fois par semaine, un résumé clinique au GO référent HAD des établissements concernés (établissement de territoire et établissement de niveau de soin adapté le cas échéant).

Cette transmission d'informations peut se faire par mail sécurisé ou fax ou encore *via* la messagerie sécurisée Teams pour les territoires équipés.

## V – SORTIE D’HAD

L’arrêt de l’HAD ou le retour en hospitalisation conventionnelle peut être décidé par tout professionnel prenant en charge la patiente.

En cas de passage d’une HAD à une hospitalisation conventionnelle sur un autre établissement que celui de territoire, il est recommandé que **la patiente soit vue par le senior de garde de la maternité de proximité qui validera et organisera, si besoin, le transfert sur l’établissement de niveau de soin adapté.**

# OFFRE HAD obstétrique en LORRAINE

(juillet 2023)

### MATERNITES

- Type 1
- Type 2
- Type 3
- CPP

### HAD obstétrique déjà en place :

- HAD Epinal (Inicea)
- HAD Freyming-Merlebach
- HAD Joeuf
- HAD Lunéville (HADALU)
- HAD Metz (HADAM, Schuman)
- HAD Nancy (HADAN)
- HAD Neufchâteau
- HAD Saint-Dié/Gérardmer (EV'HAD)
- HAD Sarreguemines
- HAD Thionville (CHR)
- HAD Verdun

### Pas d'HAD obstétrique en place :

- HAD Bar-le-Duc
- HAD Mont-Saint-Martin
- HAD Sarrebourg

## Annexe 2

### Liste des communes lorraines couvertes par une structure d'HAD en obstétrique (non à jour version juillet 23)

### Annexe 3 - Contrat d'admission en HAD

	<b>Accord de la patiente HAD obstétrique</b>	<i>Logo établissement prescripteur</i>
---	--	--

**Je soussignée,**

NOM : \_\_\_\_\_

Nom de jeune fille : \_\_\_\_\_

Prénom : \_\_\_\_\_

Date de naissance : \_\_\_\_/\_\_\_\_/\_\_\_\_

Adresse complète (code/escalier/porte) : \_\_\_\_\_

*ou coller étiquette*

#### Accord de la patiente, désignation du médecin traitant et de la personne à prévenir :

Dans le cadre de l'Hospitalisation à Domicile (HAD) et selon les dispositions de la [circulaire DH/E02/2000/295 du 30/05/2000](#), «*Le médecin traitant est choisi librement par le malade. Qu'il soit ou non prescripteur de l'HAD, il est pivot de la prise en charge du patient à domicile [...]. L'HAD ne peut se réaliser qu'avec son accord, au vu du projet thérapeutique.* »

Selon l'[article L.111-4 du Code de la Santé Publique](#) «*Toute personne prend, avec le professionnel de santé et compte tenu des informations et préconisations qu'il lui fournit, les décisions concernant sa santé. Le médecin doit respecter la volonté de la personne après l'avoir informée des conséquences de ses choix. [...]. Celle-ci est inscrite dans le dossier médical. [...] Aucun acte médical ni aucun traitement ne peut être pratiqué sans le consentement libre et éclairé de la personne et ce consentement peut être retiré à tout moment.* »

- Accepte mon entrée en HAD et les soins qui me sont proposés, après en avoir été informée librement, et déclare avoir pris connaissance des textes ci-dessus.
- **Mon médecin traitant est le docteur :** \_\_\_\_\_
- Je choisis comme personne à prévenir (Nom, prénom, adresse, n° de téléphone) :  
Mr , Mme \_\_\_\_\_  
\_\_\_\_\_
  
- Lien avec la patiente (conjoint, parent, ...) : \_\_\_\_\_

#### Désignation de la personne de confiance :

- Déclare ne pas souhaiter désigner une personne de confiance.
- Désigne, comme personne de confiance :
  - La même personne que la personne à prévenir citée ci-dessus, OU
  - Mr, Mme, Mlle (Nom, prénom, adresse, n° téléphone) : \_\_\_\_\_  
\_\_\_\_\_
  
- Lien avec la patiente (conjoint, parent, ..) : \_\_\_\_\_

Fait à \_\_\_\_\_, le \_\_\_\_/\_\_\_\_/\_\_\_\_

## Annexe 6 : REFERENTS GYNECO-OBSTETRICIENS pour l'HAD

Chaque maternité désigne un gynécologue obstétricien référent HAD.

Ce professionnel a pour mission de :

- Faire le lien entre l'équipe d'obstétrique de sa maternité et le ou les HAD partenaires et notamment, en informant les membres du staff de toutes les nouvelles admissions en HAD.
- Réceptionner les **fiches d'admission** et les **résumés cliniques hebdomadaires** de :
  - toutes les patientes hospitalisées en HAD sur le territoire de sa maternité
  - et pour les établissements de type II ou III, des patientes hospitalisées sur un autre territoire mais dont l'âge gestationnel et/ou l'estimation du poids fœtal correspondent au niveau de soin de sa maternité
- Transmettre une copie de ces deux documents (fiche d'admission et résumé clinique hebdomadaire) à la salle de naissance (cahier/classer dédié) pour toutes les patientes en HAD
- Assurer la continuité de ces missions en cas d'absence (binôme ou remplaçant désigné).
